Corporate Introduction

AnnFar Global Pvt Ltd is a diversified strategic consulting, business facilitation and partnership development company headquartered in Colombo, Sri Lanka. We exist to connect organisations, institutions, investors, governments and strategic partners, bringing the right people and opportunities together across borders and industries.

Operating at the intersection of multiple high-growth sectors, AnnFar Global helps its partners identify opportunities, build meaningful collaborations and execute initiatives that deliver sustainable, long-term value. Our strength lies not in a single product or service, but in our ability to see connections others miss, and to turn those connections into outcomes.

Whether facilitating a cross-border investment, advising an institution on international partnerships, or sourcing materials and solutions for a growing enterprise, our approach is consistent: act with integrity, think globally, and deliver value at every stage of the relationship.

Founder's Message

“AnnFar Global was founded on a simple belief: that opportunity is everywhere, but value is created only when the right partners are connected with purpose and trust.”

In an increasingly interconnected world, the organisations that thrive are those that can reach beyond their own borders and disciplines to collaborate, invest and grow together. AnnFar Global was established to be that bridge: a trusted partner that connects institutions, investors and enterprises across regions and sectors, and helps them realise ambitions that none could achieve alone.

Our commitment to every partner is the same: to listen carefully, to act with integrity, and to focus relentlessly on results. We do not measure our success by the deals we facilitate, but by the lasting value and relationships we help build. I invite you to explore what is possible when opportunity and partnership come together.

Dr. Mohamed Farook Abdul Majeed

Founder & Managing Director

Vision, Mission & Values

Our Vision

To become the trusted partner for cross-border opportunity and collaboration, recognised across regions and sectors for connecting the right people, ideas and resources to create lasting value.

Our Mission

To identify and unlock opportunities for our partners by building trusted connections, facilitating meaningful collaborations, and executing initiatives that deliver measurable and sustainable results.

Our Values

- **Integrity.** We act honestly and transparently, and we honour every commitment we make.
- **Excellence.** We hold ourselves to the highest professional standards in everything we deliver.
- **Collaboration.** We believe the best outcomes are built together, across borders and disciplines.
- **Sustainability.** We pursue value that endures, for our partners, communities and future generations.
- **Global Vision.** We think internationally, connecting local strengths to global opportunities.

What We Do

AnnFar Global serves as a strategic bridge between organisations, institutions, investors, governments and industry partners, helping them identify opportunities, establish meaningful collaborations and achieve sustainable growth.

Our role extends beyond traditional consulting. We actively facilitate partnerships, connect stakeholders and support the development of initiatives that create measurable value across industries and markets.

Strategic Consulting

Providing insights, guidance and market intelligence to support informed decision-making.

Business Facilitation

Connecting organisations with the right partners, suppliers, investors and opportunities.

Partnership Development

Building strategic alliances, joint ventures and collaborative initiatives that drive long-term success.

Market Access Support

Helping organisations explore and enter new markets through trusted networks and local insights.

Investment & Opportunity Facilitation

Identifying and connecting credible opportunities with potential investors, partners and stakeholders.

Cross-Border Collaboration

Supporting international engagement, institutional partnerships and global business development initiatives.

How We Create Value

Every engagement follows a disciplined, partnership-driven process designed to identify potential, build connections and support long-term success.

01 Identify

We work closely with our clients and partners to understand their objectives and identify the most promising opportunities across markets, sectors and networks.

02 Connect

We bring the right parties together through our trusted global network: investors, institutions, governments and enterprises.

03 Develop

We structure collaborations, partnerships and commercial frameworks that align interests and create a foundation for sustainable success.

04 Execute

We coordinate and facilitate delivery, managing the details that turn intentions into action.

05 Sustain

We nurture relationships beyond the transaction, ensuring value continues to grow over the long term.

Business Verticals

AnnFar Global operates across eight complementary business verticals, enabling us to advise, connect, facilitate and deliver solutions across multiple industries. This integrated approach allows us to identify opportunities, build strategic partnerships and create value in ways that single-sector organisations often cannot.

01 Education

International partnerships, institutional development, university collaborations and student mobility solutions.

02 Healthcare

Healthcare transformation, strategic partnerships and innovation-driven growth.

03 IT & Business Solutions

Digital transformation, technology enablement and business growth solutions.

04 Energy & Commodities

Strategic sourcing, commercial partnerships and market access solutions.

05 Industrial Materials

Strategic sourcing, supply-chain support and industrial partnership solutions.

06 Real Estate & Investments

Strategic real estate, investment and partnership solutions.

07 Apparels & Accessories

Strategic sourcing, supply-chain development and apparel partnership solutions.

08 Strategic Partnerships

Building strategic partnerships. Creating lasting value.

Education

International partnerships, institutional development, university collaborations and student mobility solutions.

We partner with universities, colleges, schools and education-focused organisations to identify international opportunities, establish strategic collaborations and expand their global reach through meaningful academic partnerships and student mobility initiatives.

From university collaborations and student recruitment initiatives to cross-border education partnerships and international representation, we connect institutions with trusted partners and opportunities that support long-term growth, global engagement and sustainable internationalisation.

Drawing on our regional and international network, together with practical leadership experience in international higher education, we build meaningful partnerships between educational institutions, industry stakeholders and strategic partners, creating opportunities that deliver long-term educational value and mutual success.

How We Help

- International university partnerships and institutional collaborations
- Student recruitment, mobility and cross-border education programmes
- International representation and market access for educational institutions
- Strategic collaborations between universities, industry and institutional stakeholders
- Public-private partnership (PPP) facilitation in higher education
- International education project development and partnership coordination

Why Partner With AnnFar Global

- Established relationships across South Asia and Central Asia
- Practical experience in international university collaboration and student mobility
- Leadership experience within an international state university environment
- Partnership-driven approach focused on long-term value creation
- Trusted regional and international network connecting institutions with the right opportunities and partners

Discuss the Opportunity

Whether you are a university seeking international collaborations, an educational institution exploring global expansion, or an organisation looking to develop meaningful cross-border education initiatives, AnnFar Global can help identify opportunities, build strategic partnerships and connect you with the right institutions and stakeholders to create lasting value.

Healthcare

Healthcare transformation, strategic partnerships and innovation-driven growth.

We partner with hospitals, clinics, healthcare providers and healthcare-related organisations in identifying opportunities, building strategic partnerships and advancing healthcare transformation initiatives.

From digital health and technology adoption to operational excellence, international collaborations and healthcare innovation, we help connect organisations with the expertise, resources and partnerships needed to improve operational performance, strengthen service delivery and support sustainable growth.

Through our network, healthcare sector experience and partnership-driven approach, we build meaningful collaborations that help healthcare organisations navigate change, embrace innovation, strengthen capabilities and create long-term value.

Digital Health • Healthcare Technology • Clinical Systems • Strategic Partnership

How We Help

- Healthcare transformation and digital health initiatives
- Medical technology adoption and healthcare innovation
- Clinical information systems and digital healthcare solutions
- International healthcare collaborations and strategic partnerships
- Healthcare project development and market access support
- Stakeholder engagement and partnership facilitation

Why Partner With AnnFar Global

- Healthcare sector expertise and industry insight
- Strong network of healthcare, technology and institutional stakeholders
- Partnership-focused approach centred on sustainable outcomes
- Practical experience across clinical practice, digital health and healthcare transformation
- Access to regional and international collaboration opportunities

Discuss the Opportunity

Whether you are a healthcare provider seeking strategic partnerships, a healthcare technology company exploring new markets, or an organisation pursuing healthcare transformation initiatives, AnnFar Global can help identify opportunities, build strategic partnerships and deliver practical healthcare solutions that create meaningful and sustainable impact.

IT & Business Solutions

Digital transformation, technology enablement and business growth solutions.

We partner with organisations in leveraging technology, innovation and strategic partnerships to modernise operations, improve efficiency and drive sustainable growth.

From enterprise software and IT infrastructure to automation, business process solutions and digital transformation initiatives, we help connect organisations with the solutions, expertise and technology partners needed to enhance operational performance, efficiency and long-term competitiveness.

Through a partnership-driven approach and a trusted network of technology providers, we help organisations identify opportunities, adopt the right technologies and implement practical solutions that support long-term business growth and digital transformation.

How We Help

- Enterprise software and IT infrastructure solutions
- Digital transformation and technology adoption initiatives
- Automation and business process optimisation
- Business solutions and operational support
- Technology partnerships and solution facilitation
- Digital healthcare and industry-specific technology solutions

Why Partner With AnnFar Global

- Technology-enabled approach to business growth
- Access to trusted technology partners and solutions
- Focus on operational efficiency and sustainable outcomes
- Strategic perspective across business and technology
- Flexible engagement models tailored to organisational needs

Our Approach

We work closely with trusted technology providers, software partners and industry specialists to understand organisational needs, recommend appropriate solutions and support successful implementation through a collaborative, partnership-driven approach.

IT & Business Solutions

Products & solutions

ENTERPRISE SOFTWARE	HEALTHCARE SOLUTIONS	INFRASTRUCTURE	BUSINESS SOLUTIONS
▪ ERP ▪ CRM ▪ HRMS ▪ Accounting & Finance Systems ▪ Document Management	▪ HIS ▪ EMR/EHR ▪ RIS ▪ PACS ▪ LIMS ▪ Pharmacy Systems ▪ AI-enabled Clinical Solutions	▪ Servers ▪ Storage ▪ Networking ▪ Cybersecurity ▪ Cloud Solutions	▪ Process Automation ▪ Business Intelligence ▪ Data Analytics ▪ Workflow Digitisation ▪ System Integration

Discuss the Opportunity

Whether you are modernising existing systems, adopting new technologies, improving operational efficiency or pursuing digital transformation initiatives, AnnFar Global can help identify opportunities, connect trusted technology partners and deliver practical business solutions that support sustainable growth.

Energy & Commodities

Strategic sourcing, commercial partnerships and market access solutions.

We partner with organisations, suppliers, buyers and industry stakeholders in identifying opportunities across the energy and commodities sector through strategic partnerships, commercial facilitation and market access support.

From strategic sourcing and supplier identification to trading relationships, distribution networks and cross-border commercial partnerships, we connect businesses with trusted suppliers, buyers and opportunities that support sustainable growth and long-term commercial success.

Through our regional and international network, industry relationships and rigorous due diligence approach, we build trusted commercial partnerships that promote transparency, reliability and long-term value creation across local and international markets, connecting businesses with the right opportunities, suppliers and strategic partners.

How We Help

- Strategic sourcing and supplier identification
- Supplier-buyer matchmaking and commercial facilitation
- Due diligence and counterparty assessment
- Trading, distribution and market access support
- Strategic partnership development
- Cross-border trade and business collaboration

Why Partner With AnnFar Global

- Access to regional and international business networks
- Partnership-focused approach centred on long-term value creation
- Strong emphasis on transparency and relationship-building
- Market access and stakeholder engagement support
- Flexible engagement models tailored to commercial opportunities

Our Approach

We work closely with trusted suppliers, buyers and strategic partners to identify reliable sourcing opportunities, facilitate commercial discussions, conduct appropriate due diligence and support successful cross-border transactions. Every engagement is approached with a focus on transparency, compliance and long-term commercial relationships.

Energy & Commodities

Products we facilitate

ENERGY PRODUCTS	INDUSTRIAL & CHEMICAL PRODUCTS	FERTILISERS	AGRICULTURAL COMMODITIES

The products listed represent categories available through our regional and international supplier network. Product specifications, origin, standards and availability are subject to supplier confirmation and project requirements.

Discuss the Opportunity

Whether you are seeking reliable sourcing channels, expanding into new markets, developing commercial partnerships or strengthening your supply chain, AnnFar Global can help identify opportunities, connect trusted partners and facilitate successful cross-border business relationships that create sustainable commercial value.

Industrial Materials

Strategic sourcing, supply-chain support and industrial partnership solutions.

We partner with manufacturers, construction companies, engineering firms and industrial stakeholders to access quality materials, trusted supplier networks and commercial opportunities that support operational success and sustainable long-term growth.

From raw material sourcing and supply-chain coordination to supplier engagement and market access support, we help connect organisations with the right materials, partners and commercial opportunities to improve reliability, operational efficiency and long-term value creation.

Through trusted industry relationships, regional and international supplier networks, and a partnership-driven approach, we facilitate reliable sourcing solutions and commercial collaborations that support sustainable business performance across local and international markets.

How We Help

- Industrial raw material sourcing and supply opportunities
- Supplier identification and engagement
- Supply-chain coordination and support
- Manufacturing, construction and engineering material solutions
- Commercial partnerships and market access initiatives
- Strategic sourcing and procurement support

Why Partner With AnnFar Global

- Access to trusted supplier and industry networks
- Partnership-focused approach centred on long-term value creation
- Support for reliable sourcing and supply-chain development
- Cross-border business and commercial opportunities
- Commitment to quality, transparency and sustainable growth

Our Approach

We work closely with trusted suppliers, manufacturers and commercial partners to identify reliable sourcing opportunities, facilitate supplier engagement and support cross-border industrial procurement through a transparent, collaborative and partnership-driven approach.

Discuss the Opportunity

Whether you are seeking reliable sourcing channels, industrial materials, supply-chain support, strategic partnerships or access to new commercial opportunities, AnnFar Global can help identify opportunities, connect trusted suppliers and facilitate successful business relationships that create long-term value.

Real Estate & Investments

Strategic real estate, investment and partnership solutions.

We partner with investors, developers, institutions and project stakeholders to identify, structure and facilitate real estate and investment opportunities that create long-term economic value and sustainable growth.

By connecting investors, property owners, developers and strategic partners, we facilitate property transactions, investment opportunities and commercial collaborations across local, regional and international markets.

Through trusted relationships, market insights and a partnership-driven approach, we help stakeholders explore opportunities, build strategic collaborations and advance projects that deliver meaningful economic and commercial outcomes, connecting the right people, projects and partnerships to create long-term value.

How We Help

- Opportunity identification and project structuring support
- Property acquisition, disposal and investment opportunity facilitation
- Connecting investors with credible projects and development opportunities
- Strategic partnerships between investors, developers and institutions
- Stakeholder coordination and commercial engagement
- Project development and market access support

Why Partner With AnnFar Global

- Access to trusted networks of investors, developers and institutions
- Partnership-focused approach centred on long-term value creation
- Support for sustainable project development and long-term value creation
- Cross-border collaboration and market access opportunities
- Flexible engagement models tailored to project requirements

Our Approach

We work closely with investors, developers, institutions and strategic partners to identify viable opportunities, facilitate commercial discussions and support project development through transparent, collaborative and partnership-driven engagement.

Discuss the Opportunity

Whether you are an investor seeking credible opportunities, a property owner exploring strategic options, a developer pursuing partnerships or an institution planning future developments, AnnFar Global can help identify opportunities, facilitate property transactions, connect the right stakeholders and create long-term commercial value.

Apparels & Accessories

Strategic sourcing, supply-chain development and apparel partnership solutions.

We partner with apparel manufacturers, brands, buyers, distributors and industry stakeholders to identify opportunities, build strategic partnerships and strengthen supply-chain networks across the apparel and accessories sector.

From apparel sourcing and manufacturing partnerships to branding, distribution and commercial collaborations, we connect organisations with the right partners, resources and opportunities to support sustainable growth and market expansion. In addition, AnnFar Global develops and markets its own apparel brands through trusted manufacturing partners, combining quality, reliability and market-driven design.

Through trusted industry relationships, regional and international networks, and a partnership-driven approach, we facilitate meaningful collaborations that create value across local, regional and international markets.

How We Help

- Manufacturer, buyer and brand partnerships
- Apparel sourcing and manufacturing partnerships
- Supply-chain coordination and development
- Branding, distribution and market access support
- Development of private label and AnnFar Global apparel brands
- Regional and international trade opportunities

Why Partner With AnnFar Global

- Access to trusted industry and commercial networks
- Partnership-focused approach centred on long-term value creation
- Support for supply-chain development and market expansion
- Regional and international collaboration opportunities
- Flexible engagement models tailored to commercial objectives

Our Approach

We work closely with trusted manufacturers, suppliers, brands and commercial partners to develop high-quality apparel solutions, facilitate strategic sourcing and support market expansion through collaborative, partnership-driven engagement.

Discuss the Opportunity

Whether you are a manufacturer seeking new markets, a brand exploring sourcing opportunities, a retailer looking for reliable supply partners or an organisation developing its own apparel line, AnnFar Global can help identify opportunities, connect the right partners and deliver solutions that support sustainable commercial growth.

Strategic Partnerships

Building strategic partnerships. Creating lasting value.

Strategic partnership development lies at the heart of AnnFar Global. We partner with organisations, institutions, investors, governments and industry leaders to identify opportunities, build meaningful relationships and develop collaborations that create sustainable commercial, institutional and economic value.

From strategic alliances and joint ventures to institutional partnerships, public-private partnerships and cross-border initiatives, we bring together complementary strengths, expertise and resources to transform opportunities into long-term, value-creating outcomes.

Through a partnership-driven approach built on trust, transparency and shared success, we facilitate collaborations that strengthen organisations, unlock new opportunities and support sustainable growth across industries and international markets. Leveraging a growing network across South Asia, Central Asia and beyond, we help organisations build partnerships that transcend borders and create long-term commercial, institutional and economic value.

How We Help

- Strategic alliances and joint ventures
- Government, institutional and public-private partnerships
- Cross-border collaboration and stakeholder engagement
- Opportunity identification and partnership development
- Multi-sector collaboration structuring
- Strategic relationship management and long-term value creation

Why Partner With AnnFar Global

- Partnership development at the core of our business model
- Extensive regional and international stakeholder networks
- Cross-sector perspective and opportunity identification
- Focus on trust, collaboration and long-term value creation
- Proven ability to identify opportunities and facilitate meaningful, long-term partnerships

Our Approach

Every successful partnership begins with understanding the objectives of all stakeholders. We identify complementary strengths, align strategic interests, facilitate meaningful engagement and support collaborations that create sustainable value, mutual benefit and long-term success.

Discuss the Opportunity

Whether you are seeking a strategic partner, developing a joint venture, exploring public-private partnerships, expanding into new markets or building institutional collaborations, AnnFar Global can help identify opportunities, connect the right stakeholders and facilitate partnerships that create meaningful, measurable and lasting value.

Why AnnFar Global

Multi-sector expertise

Eight connected verticals let us serve partners holistically and unlock cross-industry opportunities.

Trusted regional and international network

Trusted relationships with investors, institutions, governments and enterprises across multiple markets and sectors.

Cross-border reach

An international footprint spanning South Asia, Central Asia, the Middle East and expanding into global markets.

Execution focus

We don't stop at introductions, we stay engaged through execution and remain accountable for outcomes.

Integrity first

Transparent, ethical engagement that builds trust, credibility and enduring partnerships.

Geographic Reach

From our base in Colombo, Sri Lanka, AnnFar Global operates across a growing network of regional and international markets, connecting organisations, institutions, investors and strategic partners with opportunities that extend beyond geographical boundaries.

Our focus is on fostering cross-border collaboration, facilitating market access, and supporting initiatives that create value across diverse industries and regions.

and expanding into new markets worldwide

Dr. Mohamed Farook Abdul Majeed

Founder & Managing Director

Dr. Mohamed Farook Abdul Majeed is the Founder & Managing Director of AnnFar Global Pvt Ltd and provides strategic leadership across the company's diverse business verticals, partnerships, and growth initiatives.

A Medical Doctor by profession with an MBA in Healthcare Management from Manipal University, India, Dr. Farook brings a multidisciplinary background spanning healthcare, digital health, medical education, healthcare operations, business development, and international stakeholder engagement.

His professional journey has included clinical, academic, healthcare technology, and leadership roles at Kasturba Hospital, Manipal, India, Army Hospital Colombo, Nawaloka Hospitals PLC, Sri Lanka, Jalal-Abad State University in the Kyrgyz Republic, and Hayleys Fentons IT, Sri Lanka. These experiences have provided him with a practical understanding of how healthcare, education, technology, and business can be integrated to create sustainable value and meaningful outcomes.

Throughout his career, Dr. Farook has worked closely with healthcare providers, educational institutions, technology companies, investors, and government stakeholders across Sri Lanka, India, and Central Asia. Recognised for building trusted relationships and facilitating strategic collaborations, he has consistently focused on connecting people, opportunities, and ideas to support long-term growth and impact.

Under his leadership, AnnFar Global continues to serve as a platform for partnership, innovation, and cross-border collaboration, guided by the belief that sustainable success is built through trust, integrity, and the ability to bring the right people, opportunities, and resources together.

Partnership Opportunities

At AnnFar Global, we believe that meaningful growth is achieved through collaboration. We actively seek opportunities to work with organisations, institutions, investors, businesses and strategic partners who share our commitment to creating sustainable value and long-term impact.

Investors & Funds

Seeking credible opportunities and trusted facilitation across our markets and sectors.

Governments & Institutions

Looking to attract investment, build capability or form international partnerships.

Universities & Hospitals

Pursuing local and international partnerships, technology adoption, institutional collaboration and sustainable growth opportunities.

Corporates & Enterprises

Seeking sourcing, solutions, market entry and strategic alliances.

Our Philosophy

At AnnFar Global, we believe that the most successful organisations are built not only on great ideas, but on the strength of the partnerships behind them. Our mission is to connect the right people, organisations and opportunities to create sustainable value that benefits businesses, institutions and communities alike.

Every meaningful partnership begins with a conversation. Let's explore what we can build together.

Let's Start a Conversation

At AnnFar Global, we believe that meaningful growth is achieved through collaboration. We actively seek opportunities to work with organisations, institutions, investors, businesses and strategic partners who share our commitment to creating sustainable value and long-term impact.
